

# SHORT CUTS 3

W12 Coppermill Lane

Wanstead

## W12 – Planned Schedule

Monday to Saturday daytime: – *Every 20 minutes*

Evening and Sunday:– *Every 30 minutes*

## Troubled Times

Unexpected delays knock most bus routes off schedule from time to time. On a low frequency route, such as the W12, the service can fall apart as Save Our Buses discovered on Friday 9<sup>th</sup> September.

SOB observed W12 buses towards Wanstead at the Grosvenor Park Road stop on Hoe St.

Four buses departed within 15 minutes at the times below:

- |                 |        |
|-----------------|--------|
| 1. Whipps Cross | 6.14pm |
| 2. Whipps Cross | 6.17pm |
| 3. Wanstead     | 6.20pm |
| 4. Wanstead     | 6.29pm |

*Journeys on the W12 should be evenly spaced, every 20 minutes.*

*Six vehicles run the W12 peak service.*

*Four buses close together left just two covering the rest of the route.*

Friday  
9-9-16

SOB's monitoring of the W12 indicates:

- A badly disrupted service with buses bunched, unevenly spaced & long gaps.
- Only 50% of journeys beyond Whipps Cross to Snaresbrook, South Woodford & Wanstead.
- W12 passengers waiting in Coppermill Lane, Walthamstow Village or Snaresbrook Road facing lengthy waits for their only bus.

London Borough Of Waltham Forest & Transport For London
