

# Damaged Routes -The 230

## NEW YEAR, NEW BUS CUTS

As 2017 drew to a close Save Our Buses (SOB) discovered that the 230 route was set for a frequency reduction. Buses will run every 15 minutes, instead of every 12, during the daytime on Mondays to Saturdays. The **230** joins Walthamstow routes **48**, **W11** and **W12** in having its service cut back to 1990 levels.

It is the result of Mini-Hollands and a transport policy which sidelines the buses.

Delays and increased journey times make services less effective.

Passengers drift away and frequencies are cut.

**Action is needed to put buses first and reverse the decline.**

**Get Back To Our Routes**

**Give Buses Priority, To Beat The Jams**

### 230 Route
