

From The Forest...

Investment in public transport infrastructure offers Waltham Forest Council an opportunity to integrate services and improve interchange. Plans for a bus hub at Whipps Cross should be ditched in favour of improved links between transport modes at Lea Bridge Station.

WHIPPS CROSS

***An isolated location
on the edge of
Epping Forest.***

Whipps Cross is a terminus for routes 56 and 357, which could stop at other locations. A bus hub here would be of little benefit to passengers.

...To The Station

LEA BRIDGE STATION

***Re-opened
May 2016***

More buses could meet the trains. Extending route W19 to this station would create better access to the rail service & offer a more direct, fast link to Walthamstow Town Centre.

Let The Bus Meet The Train
