

## WALTHAM FOREST BUS CUTS

# Route 58

**Roadworks** and a **frequency cut** have dealt a double blow to route 58 passengers. Daytime frequencies were reduced from 14<sup>th</sup> January. Buses now run every 12 minutes Monday to Friday (after the morning Peak) and all day Saturday. That's down from every 10 minutes.

**The result is fewer buses for:** **Walthamstow:** Markhouse Road

**Leyton:** Church Road and Leyton High Road **Leytonstone:** Crownfield Road and Cann Hall Road

## Temporary!

National Grid Gas works in Newham and ongoing cycling works in Waltham Forest led to the *revised temporary* timetable.

### How long is temporary?

No date is set for the full schedule to be restored on the 58 bus.

From 2018 TfL loses the operating grant used to fund public transport. There will be pressure to cut costs.

In a turning back of the clock, bus service reductions are on the agenda for London.

**It will be a battle to get frequencies restored on our local routes and to prevent further cuts.**

**26<sup>th</sup> January 4.30pm** – Late afternoon and a packed 58 bus departs from the stop opposite Leyton Tube Station.

### **Cann Hall Area**

Route 308, which runs along Dames Road, also faces cuts from 4<sup>th</sup> March. Peak hour frequencies will be reduced on the service which links Wanstead, Wanstead Park, Stratford City, Homerton & Clapton.
